## FOREWORD

The Guidelines for Preparation and Submission of Students' Research Proposals, Dissertations and Thesis, have been developed in order to guide students and supervisors on the roles of various parties in the process of preparation of students' research proposals, implementation of the research projects, preparation and submission of dissertations/theses. The Guidelines are intended to ensure that the students' research activities are well streamlined so that good quality results are obtained and high quality dissertations/theses are produced commensurate with the MoCU desire of building a world-class university. The development of this document is yet another clear indication of the commitment that MoCU puts on research in line with its vision and mission. The Guidelines are a valuable tool for supervisors, students, researchers and the University management in enhancing the execution of research activities emphasizing on quality of the process and outcomes.

In developing these guidelines, various documents related to guidelines for administration of students' research and preparation of dissertations/theses in various universities within and outside the country were consulted. Therefore, it is my hope that supervisors, students and users of the guidelines will find this document useful for and in guiding the process from research proposal development through to submission of dissertations/thesis for examination. The Management of this institution expects that strict adherence to the Guidelines and other related administrative instruments, such as the regulations stipulated in the Prospectus, will result in the quality of research outputs, dissertations/theses and publications emanating therefrom meeting the expected quality from the University developing into a world-class Co-operative University.

These guidelines will be reviewed from time to time as need arises to enable the University to keep pace with the fast changing academic and technological developments globally. On behalf of the Management of MoCU, I wish to thank all those who participated in one way or the other in the preparation of this document. The commitment and efforts of the task force that spearheaded the review of this document as well as the staff in the Office of Directorate of Research and Postgraduate Studies are highly acknowledged for making these guidelines a reality.

Prof. Alfred S. Sife,  
**Vice Chancellor**

## **1.0 INTRODUCTION**

### **1.1 Background to the University**

The history of the Moshi Co-operative University (MoCU) dates way back to 5th January, 1963 when the then Co-operative College Moshi was established. The College's primary responsibility was training of human resource in the co-operative sector under the then Ministry of Co-operatives and Community Development. The College was subsequently established through the Co-operative College Act No. 32 (Repealed) of 1964 as an autonomous institution with its own Governing Board. In 2004, the Co-operative College Moshi was transformed into Moshi University College of Co-operative and Business Studies (MUCCoBS) as the Constituent University College of Sokoine University of Agriculture through the Government Declaration Order No. 22 of 2004. MoCU came into being as a result of transforming Moshi University College of Co-operative and Business Studies (MUCCoBS) to a full-fledged University in September, 2014. The University is governed by its own Charter, made under the Universities Act No. 7 of 2005 (Cap 346) of Tanzania laws. MoCU is located in Moshi Municipality, on the foot of Mount Kilimanjaro along Sokoine Road.

### **1.2 University Vision, Mission and Core values**

#### **1.2.1 Vision**

To become a centre of excellence in co-operative education and practice.

#### **1.2.2 Mission**

To provide quality education, training, research and advisory services to enhance co-operative development.

#### **1.2.3 Core values**

Cooperation, objectivity, pursuit of excellence in service delivery, integrity and accountability, courtesy to all, and social responsibility.

### **1.3 Objectives of the Guidelines**

These Guidelines will serve to provide a framework upon which students will base the development of their research proposals, conduct of their research, and preparation of dissertations/theses/Project reports and other scientific writings that meet world class standards.

Specifically, the guidelines seek to:

- (a) Guide students on research proposal preparation
- (b) Guide students on the conduct of research
- (c) Strengthen supervision of students' research work
- (d) Guide students on dissertation/thesis/project report preparation

### **1.4 Scope of the Guidelines**

The Guidelines focus on the preparation of students' research proposals, implementation of the students' research projects, preparation of dissertations, theses and project reports for examination, and the roles of students, supervisors and other relevant parties in the University. They are meant to act as the point of reference for the candidates of bachelor degrees, postgraduate diploma, master's degree and doctor of philosophy (PhD). The guidelines are meant to assure academic good practices and consistency, taking into consideration the fact that the reports, research projects, dissertations and thesis are part of the requirements for obtaining the aforementioned degrees.

## 1.5 Definitions

In these guidelines, unless the context requires otherwise;

- “An abridgement”** means an extract or a short account of a dissertation/thesis.
- “Concept Note”** means an outline of the research proposal of 3 to 5 pages (including references).
- “Dissertation”** means an academic writing that presents the author’s research and findings and is submitted in support of partial fulfilment of candidature for a degree or professional qualification. Dissertations shall be internally and externally examined.
- “Preliminaries”** means matters before the introduction and which are numbered in *Italics*.
- “Proposal”** means a written presentation of an intended research specifying the problem, the purpose, scope/objective, methodology, references and financial plan/budget.
- “Reference”** includes all sources cited in a document while a bibliography includes all sources read (cited or not).
- “Report”** includes research reports and project reports.
- “Research project report”** means an intellectual academic writing that presents the authors research findings and is submitted in support of partial fulfilment of candidature for a postgraduate diploma or postgraduate degree or undergraduate degree. Research projects for undergraduate and postgraduate diploma shall be internally and externally examined. Whereas postgraduate degree research projects shall not be externally examined.
- “Thesis”** means an intellectual academic writing that presents the author’s research findings and is submitted in fulfilment of candidature for a degree or professional qualifications.

## 1.6 Application of the Guidelines

These Guidelines shall apply to all candidates of MoCU. Similarly, the Guidelines apply to all researches undertaken by staff members in MoCU.

## 2.0 CONCEPT NOTE, PROPOSAL, REPORT, DISSERTATION OR THESIS DESIGN

### 2.1 Concept Note

#### 2.1.1 The concept note/synopsis shall contain the following components;

- (i) Intended title/topic of the study;
- (ii) A summary of the background;
- (iii) A brief statement of the problem;
- (iv) The main objective and specific objectives;

- (v) The intended methodology; and
- (vi) References.

**2.1.2 The concept note should be between two (2) and five (5) pages including references**

**2.2 Proposal**

The proposals shall include the following components:

**2.2.1 Cover page**

The cover page of the proposal shall contain the title in capital letters with a maximum of 20 words. Names of the candidate, and a clause “A research proposal submitted in partial fulfilment for the award of degree of Master of Business Management of Moshi Co-operative University”. Indicate the year and month in which the proposal is to be submitted, at the bottom as in Appendix 1(a)].

**2.2.2 Title and Title Page**

The title of the proposal should accurately reflect the scope and content of the study in not more than 20 words. It should be concise and clear. From it, the reader should be able to predict fairly accurately what the report/dissertation/thesis will be addressing. Title of the proposal should be written in capital letters (well centred), font size 12 and font type, Times New Roman.

Title page of the proposal shall indicate, the research title, the full name (starting with first name, second name and last name) following the words: [PhD or Masters Research Proposal] (well centred) after then the name of the department should be written as shown in Appendix 1(b)].

**2.2.3 Background**

This section provides evidence and conditions of the existing situation highlighting the gap(s) to make the reader feel the urgency of the problem, the need to study it in order to solve the problem or contribute to its solution.

**2.2.4 Statement of the problem**

It is a section that introduces the problem of which the research has to be conducted. The section refers to the research problem that has been detected and which needs a better understanding and/or solution in the practical/theoretical world. The problem and its magnitude have to be stated clearly. The statement of the problem should not exceed one page.

**2.2.5 Objectives**

This section shall be composed of the main and specific objectives of the research. The main objective should tell what the research is intended to accomplish. Specific objectives are specific aims arising directly from the general objective of the study. For each specific objective there must be a method to achieve it.

**2.2.6 Hypotheses/Research questions**

Hypotheses are specific statements of prediction. They describe in concrete terms what is expected to happen in a study while research questions are issues that the researcher seeks to answer. Research questions should relate to the research objectives and guide the research process by addressing the variables of the study.

### **2.2.7 Justification of the study**

This refers to the relevance of the study in terms of academic contributions and practical use that might be made of the findings. It should address the way the study is crucial to policies and programmes formulation and review. On top of that, it should reflect on knowledge creation, technological or socio-economic value to the community.

### **2.2.8 Literature review**

This section deals with analysis of existing literature on the subject with the objective of bringing up discussion, revealing contributions, weaknesses and gaps in the existing literature. It should reflect the themes of the study, objectives, hypotheses, methods and research questions. Citations should be in accordance with approved format.

Conceptual and theoretical frameworks (not applicable for undergraduate reports), are part of the literature review. A conceptual framework is a scheme of concepts (variables) which a candidature will operationalise in a study in order to achieve the set objective. The framework is normally presented graphically (diagrammatically). Non-graphical conceptual framework is also accepted. Theoretical framework on the other hand implies an examination of existing or self-formulated theories in relation to the study objectives.

### **2.2.9 Research methodology**

This section shall address the methods and tools proposed to be used when conducting the study. In this part the researcher is ought to present criteria and justification for the methods and tools selected. It shall include research designs, geographical coverage, population, sample and sampling strategies, data and data collection methods, assurance of data reliability and validity, operational definition of variables and their measurement levels (if applicable) and data analysis.

### **2.2.10 References**

The list of all works referred to/cited in the proposal shall be provided in this section. The format for citation is as stated in these guidelines. See: *Item 4.0 and Appendices* thereto.

### **2.2.11 Appendices**

The appendices section shall be comprised of, among other things, the budget for the proposed study and the proposed work plan, including the time frame and data collection instrument(s)/tool(s) or any other document(s) found to be necessary. The budget shall state out the sources of funds required for the proposed study from data collection to final binding. The proposed work plan shall portray the chronology of events from data collection to the writing of the report, dissertation or thesis.

### **2.2.12 Length of the proposal**

The length of proposals for the respective degrees shall be as follows:

- (i) Undergraduate Degree: It should not exceed 10 pages excluding appendices and references;
- (ii) Postgraduate Diploma, Masters Degree and PhD: It should be up to 15 pages excluding appendices and references;

## **2.3 Research Report and its Contents**

Report is a detailed account of the study. The sequence of a research report shall be as follows:

### **2.3.1 Preliminaries**

The pages shall be numbered in roman numerals and shall consist of:

- (i) Cover page [See: Appendix 1(a)]
- (ii) Title page [See: Appendix 1(d)]
- (iii) Declaration and Copyright [See: Appendix 1(e)]
- (iv) Certification [See: Appendix 1(h)]
- (v) Dedication (If any)
- (vi) Acknowledgement
- (vii) Table of Contents
- (viii) List of Tables (If any)
- (ix) List of illustrations(figures, plates) (If any)
- (x) Abbreviations and/ or Acronyms
- (xi) Abstract.

### **2.3.2 Main text of the study**

Except for the research reports, dissertations or theses by the candidates pursuing law degrees, the sequencing of the main text shall be as follows:

#### **Chapter One: Introduction**

This chapter shall include the background, statement of the problem, objectives, research questions and/or hypothesis, significance of the study, justification of the study and organization of the study.

#### **Chapter Two: Literature Review**

This chapter shall consist of theoretical literature, empirical literature and conceptual framework (if applicable). In perfecting this chapter reference should also be made to item 2.2.6 of the proposal.

#### **Chapter Three: Research Methodology**

This chapter shall include research designs, geographical coverage, population, sample and sampling strategies, data and data collection methods. It should also include aspects of assurance of data reliability and validity, operational definition of variables and their measurement levels (if applicable) and data analysis.

#### **Chapter Four: Findings and Discussion**

This chapter addresses the results from your data analysis and discussion.

#### **Chapter Five: Summary, Conclusion and Recommendations**

This chapter addresses the summary, conclusion and recommendations that arise from the findings of your study. Areas for further research may also be included.

#### **References**

References should be presented in alphabetical order and formatted with hanging indentation as shown in Appendix 2.

#### **Appendices**

Appendices include any information that is related to your study but cannot be placed in the text.

#### **2.3.2.1 Research reports/theses/dissertations for law candidates**

For students pursuing law degrees the research reports/theses/dissertations shall contain at least the following chapters:

## **Chapter One: Introduction**

The contents of this chapter shall include:

- Background
- Statement of the problem
- Hypotheses or research questions
- Objectives
- Significance or justification
- Literature review
- Research methodology.

## **Chapter Two: Analysis of laws**

## **Chapter Three and Four (Findings and discussion of the study)**

## **Chapter Five: Conclusion(s) and Recommendation(s)**

### **2.3.2.2 Length of the research report/dissertation/thesis**

- (a) Undergraduate and Postgraduate Diploma: A maximum of 60 pages with a tolerance of 15 pages above this limit. (Appendices and footnotes included)
- (b) Master's dissertation/thesis shall have the minimum of 70 pages and maximum of 100 pages with a tolerance of 10% above this limit, i.e. up to 10 extra pages, including appendices and footnotes.
- (c) PhD dissertation/thesis shall have the minimum of 200 pages and maximum of 300 pages with a tolerance of 10% above this limit, i.e. up to 30 extra pages, including appendices and footnotes, except for PhD by publishable manuscripts. Candidates shall use gender neutral language in writing their dissertations/theses unless the nature of the research requires the use of gender specific language.
- (d) The dissertation/thesis shall be written in the English Language (UK style).
- (e) The number of pages under this section does not apply on dissertation/thesis by papers.
- (f) In the case of dissertation by papers, the format of the Journal concerned shall be adopted.

## **3.0 MANUSCRIPT LAYOUT**

### **3.1 Typing**

Text shall be typed in 1.5 line spacing. The typing should be on both sides of the A-4 paper. The A-4 paper must be of a good quality acid free white (80g/m<sup>2</sup>) and (210×297mm). With exception to the front and title pages, font size shall be 12 points (Times New Romans).

### **3.2 Pagination**

#### **3.2.1 Pagination of the preliminaries**

The pagination of the preliminaries shall be in lower case roman numerals (i.e. i, ii, iii etc.). The pagination should begin with the title page (i.e. the roman number should not appear in the front page).

#### **3.2.2 Pagination of the main text**

Page numbers of the body of the proposal, research, dissertation and thesis should be in Arabic numerals (i.e. 1, 2, 3 etc).

#### **3.2.3 Appearance of page numbers**

In both the preliminaries and the main text, page numbers should appear on top of the upper margins (located at the centre).

### 3.3 Margins

The left hand margin should be 4.0 cm from the left edge of the paper. The right hand margin should be 2.0 cm from the right edge of the paper. The top margin should be 3.0 cm from the top edge of the paper. The bottom margin should be 2.0 cm from the bottom of the paper.

### 3.4 Language

The United Kingdom English shall be used in writing the proposals, research reports, dissertations and theses. For example, the word ‘organisation’ is a U.K. English. The same is written as ‘organization’ in U.S. English. or Co-operative and Cooperative.

### 3.5 Chapters

The appearance of chapters shall be as shown in Appendix 3

#### 3.5.1 Headings and Sub-headings

The heading and subheadings shall be written under four levels at most. The main heading (Heading 1) followed by three levels of sub-headings: Heading 2, Heading 3, and Heading 4. Subsequent sub-heading shall use alphabets (e.g. a, b, c) or roman numbers (i, ii, iii). Bullets should not be used. See: Appendix 3.

### 3.6 Title Page

Title of the research/dissertation/thesis should be written in capital letters(well centred), font size 12 and font type, Times New Roman. It shall indicate, the research title, the full name(starting with first name, second name and last name) and the following statement under the name (well centred), symmetrically arranged:

**“A research report/thesis/dissertation (whichever is applicable) submitted in fulfilment/partial fulfilment of the requirement for the award of degree of (insert name of degree) of Moshi Co-operative University; Moshi.”** Indicate the year in which the degree is to be awarded by the SENATE at the bottom. [See Appendix 1(d)]

### 3.7 Tables

A table is a tabular material of at least three horizontal lines presented in the dissertation/thesis. There should not be vertical lines separating the columns. The text in these tables should be single spaced. There may be more than one table on the same page provided they are separated by a text of at least four lines. A table should not be continued to the next page, if it exceeds one page then it should be appended.

Tables should be numbered in ascending order using Arabic numbers (i.e. Table 1 :.....). See example on Appendix 4. Capitalize only the first letter of the first word of the captions and column headings in a table. Each table must be preceded by a heading which is self-explanatory. Tables presented in landscape format (horizontal), the caption should be typed at the left hand margin length-wise on top of the table. Sample size/population used in data analysis should be written as (n = 210) (*where 210 is a total number of units referred in a table*) at the end of the respective heading(s).

Source should be documented below the table before explanation if the material is from a secondary source (not on new data generated from the research itself), e.g. Source: Caesar and Liana (2013). Write references for table in full only in the references list. A table in the text should not exceed the printed area of the page.

### 3.8 Figures and photographs

Figures should be used in circumstances where tables are not needed. These can be maps, pie charts, hand drawings, bar graphs and so on. They should be numbered and labelled in the

same way as tables, with their sources and all other elaborations placed at the bottom of the respective figures (i.e. Figure 1: .....,). Photographs should be numbered as Plate 1..... and so on.

**Note:** Figures and plates should be numbered serially throughout the text.

### 3.9 Units of Measurements

Use the International System of Units (SI)<sup>1</sup>. Spell out units unless they are preceded by numbers. Abbreviations for units are the same in singular and plural i.e. kg and not kgs. Express rates or amount per units in the form 39kg/hr.

### 3.10 Equations

Equations should be numbered consecutively throughout the text. Numbers should appear flush left in parentheses and running variables for equations (e.g.  $1 = 1 \dots n$ ) flush right in parentheses.

#### Example 1:

$$TC_i = \beta X_i + \varepsilon_i \quad i = 1, \dots, N \quad (1)$$

#### Example 2:

$$AI_i = \left| \frac{\sum_j x_{ij}}{X_m} \right| \quad (i = 1, 2, \dots, x; j = 1, 2, \dots, m) \quad (2)$$

### 3.11 Numbers

Numbers in text should be written as follows:

- (i) Numbers with four digits on either side of the decimal point, run digits together, i.e.
  - 2000;
  - 3965;
  - 0.3476
- (ii) Numbers with more than four digits, leave a space(not a comma) between each group of three digits on either side of the decimal points, e.g. 2 345 678; 9 845 908; 20 000; and 0.043 34
- (iii) In columns of numbers (e.g. in tables) having four or more than four digits, group the digits into three as follows:
  - 18 456;
  - 5 957;
  - 452
- (iv) For the decimal point, use a full stop and not comma, e.g. 0.6 not 0,6.
- (v) For numbers below unity, precede the decimal point with a zero, e.g. 0.78 not .78
- (vi) In a series of three or more numbers, use figures irrespective of magnitude, e.g. “in trials with 5 farmers in Tanzania, 4 in Kenya and 9 in Uganda”
- (vii) Spell out numbers from zero to nine, but use figures for higher numbers e.g. five plots; 12 plots.

- (viii) Spell out numbers that occur at the beginning of sentence.
- (ix) Use figures whenever a number is followed by a unit of measure and for days, years, dates, page numbers, classes etc., e.g. 6kg, 4g, 4days, 1 year, 7<sup>th</sup> January, page 56, type 9, etc.
- (x) Express fractions as decimals, though percentage and simple fractions can still be used.
- (xi) For simple fractions use the form one- quarter, two-third, not ½, 2/3 etc.
- (xii) Avoid large figures with several zeros. Either spell them out or present them in exponential form; e.g. 18,000,000 write 1.8 million or  $1.8 \times 10^6$ .

### 3.12 Percentage

Use % symbol only with figures, e.g. 0.98% but spell out the words percent or percentage when they occur without figures. e.g. Twenty percent and not 20 percent.

### 3.13 Formula

Candidate must use the internationally accepted format as shown in Appendix 5.

### 3.14 Time and Date

Use the 24 hour clock, e.g. 08:40 hr, 23:45 hr and write date in the form 23 February, not 23<sup>rd</sup> February, February 22 or February 22<sup>nd</sup>.

### 3.15 Local Terms

If local or unfamiliar terms are used, they should be written in *Italics* and given description when they are first used e.g. '*Ifogongh'o*' (traditional savings and credit groups)

### 3.16 Abbreviations/Acronyms

If abbreviations or acronyms are used in the text, then, these should be stated in full the first time they are mentioned. If, they are many, they should be listed in alphabetical order and should be included in the preliminary pages of the document.

#### Example:

BDS	:	Business Development Services
CDM	:	Co-operative and Development Management
Dept	:	Department
FAO	:	Food and Agriculture Organization
GBV	:	Gender Based Violence
NATO	:	North Atlantic Treaty Organization

### 3.17 Interviews

This includes: personal interview, emails, letters, and other person-to- person communication. In the text interviews should be written in *Italics*. Name(s) (if applicable), date, month and year of interview should be indicated at the end (right side) of the interview.

#### Example One: Safari said,

*"...the reality is that parents are sometimes trapped in terrible dilemmas on either to provide bread/nurture or love and attention. They spend time earning 'for their children's survival and as a result no time is left to be spent with their children..."* (22 September, 2020).

**Example Two:**

*“...In 2011/12, I encountered a big loss because my farm was swept away by floods. I ended up harvesting only 20 kilos of maize...”* (Boko, 22 September, 2019).

**Note:** Personal communication should not be included in the reference list.

**3.18 Quotations**

Quotation should not exceed 100 words. Direct quotation of fewer than 40 words which includes facts and figures should be displayed in double quotation marks. ## Appendix X: Formulae

1. Formulae should be typewritten, if possible leave ample space around the formulae.
2. Subscripts and superscripts should be clear.
3. Greek letters and other non-Latin symbols should be explained in the footnote where they are first used. Take special care to show clearly the difference between zero (0) and the letter O, and between one (1) and the letter l.
4. Give an interpretation of all symbols immediately after the equation in which they are first used.
5. For simple fractions use the solidus (/) instead of a horizontal line, e.g.  $1p/2m$  rather than  $\frac{1p}{2m}$
6. Equations should be numbered serially at the right-hand side in parentheses. In general only equations explicitly referred to in the text need be numbered.
7. The use of fractional powers instead of root signs is recommended. Also powers of log e are often more conveniently denoted by exponent.
8. Levels of statistical significance which can be mentioned without further explanation are: \* $P < 0.05$ , \*\* $P < 0.001$ .
9. Level of significance for comparable means should be written in superscript in a table and be defined as footnote below the table.
10. In chemical formulae, valence of ions should be given as, e.g.  $\text{Ca}^{2+}$  and  $\text{CO}_3^{2-}$ . Not as  $\text{Ca}^{++}$  or  $\text{CO}_3^{--}$ .
11. Isotope numbers should precede the symbols, e.g.,  $^{13}\text{O}$ .
12. The repeated writing of chemical formulae in the text is to be avoided where possible; instead, the name of the compound should be given in full. Exceptions may be made in the case of a very long name occurring very frequently or in the case of a compound being described as the end product of a gravimetric determination (e.g. phosphate as  $\text{P}_2\text{O}_5$ ).

## Appendix XI: Selected Symbols for Units and Prefixes

A	ampere	K	Kelvin
Å	Angstrom	lm	lumen
atm	atmosphere	lx	lux
Bar	Bar	m	metre
c-	centi ( $\times 10^2$ )	m-	milli- ( $\times 10^{-3}$ )
°C	degree Celsius	mbar	millibar
cal	calorie	M	mega- ( $\times 10^3$ )
d	day	μ	micro- $\times 10^{-6}$
d-	Deci- ( $\times 10^{-1}$ )	min	minute
F	Farad	ml	milliliter
°F	degree Fahrenheit	n-	nano- ( $\times 10^{-9}$ )

## Appendix XII: Example of presenting in-text citations for Law Candidates

According to Cracogna Dante, Co-operative legislation constitutes the first and basic stance by state towards cooperatives. Henry Hagen,<sup>1</sup> points out that Co-operative law is not a sufficient means to establish a Co-operative system. He observes that an effective and efficient Co-operative legislation may be described as a system where the general ideas in economics, political science, democracy, the ethical concept of cooperation, Co-operative values and principles reciprocally generate, stabilize and complement one another.<sup>2</sup> Thus, Co-operative principles, values and ethics may be translated into Co-operative policy and all may further be translated into legal norms. Indeed, Henry Hagen argues that Co-operative law is a means to make Co-operative policy work.<sup>3</sup>

At first, Co-operative form of organizations were regulated by the laws called the Friendly Societies Acts of 1834 and 1846 which were not designed for mutual aid groups. From 1852 onwards, however, cooperatives became registered under the Industrial and Provident and Partnership Act, 1852.<sup>4</sup> Subsequent re-enactments of the 1852 and 1867 Acts effectively provided for a full legal basis for the functioning of cooperatives.<sup>5</sup> The law was consolidated in further Industrial and Provident Societies Acts of 1876, 1893 and 1965.<sup>6</sup> Kimberley, Zeuli *et al*<sup>7</sup> point out that the law on cooperatives provided for important legal protections and it also.....
